PERSONAL PROJECTS

NETFLIX CLONE

I have created a Frontend of Netflix using React. Where you can watch trailer of Netflix web series.

Tech Stack: HTML, CSS, React

Code: *https://github.com/makdoom/netflix-clone*

View: https://makdoom.github.io/netflix-clone

FOODIE APP

This is a responsive Food Recipe App with some awesome UI. Where you can find any recipe.

Tech Stack: HTML, CSS, React

Code: *https://github.com/makdoom/foodieapp*

View: https://makdoom.github.io/foodieapp

COVID19 TRACKER

COVID19 Tracker App in HTML, CSS & JavaScript. Which shows the live cases of Corona Virus of a particular country in the world.

Tech Stack: HTML, CSS, JS

Code: *https://github.com/makdoom/covid19-tracker*

View: https://makdoom.github.io/covid19-tracker

Notes Taker

Keeping notes of everything that you learned helps you to remember it for long time. This project is implemented using Vanilla JavaScript.

Tech Stack: HTML, CSS, JS

Code: *https://github.com/makdoom/notestaker*

View: https://makdoom.github.io/notestaker

and many more...
